What fees will I pay?

Conversation Starter –

- **Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

Fees will range from a flat fee or to a fee that is tied to the account transaction size, usually expressed in dollars. Transaction-based fees may be negotiated and size may matter and may therefore result to investor incentive. Most common fees and costs are associated with transaction fees, management fees and commissions.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

What are your legal obligations to me when providing recommendations? How else does your firm make money and what conflicts of interest do you have?

We are required to act in your best interest and not put the firm's or representative's interest ahead of yours.

The firm may receive payments from a third-party when you invest in certain products. These payments represent additional compensation to us, or compensate us for ongoing support activities we perform on behalf of third parties, such as product servicing or recordkeeping. This results in a financial incentive to recommend products that provide additional compensation to us over those that pay lesser amounts or none at all. Such payments may also affect which products we make available.
